

Reference matching: a valid alternative's added or omitted notes count as errors

ChartGenEval: test the measurement

Human chart at a chosen difficulty

Target edit at
3 strengths
e.g., whole-chart shift

**Measurement
must respond**

Matched control
e.g., notes and grid
shifted together

**Measurement
must stay unchanged**

Design: 40 songs → Test: 80 held-out songs,
all 9 tests pass (Table 1)
