

Timing

Are notes aligned to musical time?

clean fraction | residual tail
chart-wide offset

held-out subset

Note sequence

Are local transitions familiar?

LM fit | transition familiarity
pattern typicality

held-out subset

Repetition & form

Does material return without stagnating?

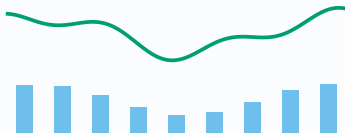

4-gram typicality | reciprocity
stagnation-alienation

held-out subset

Music response

Does chart activity follow the song?

density-energy response
onset support

development

Human-chart distance

How far is the generated chart from same-course human charts?

32-D nearest-neighbor gap

development

Difficulty & limits

Are chart demands typical for the requested course and within declared limits?

rate/load typicality
overload and spike checks

held-out subset
