

C1 dense timing jitter

target: timing clean fraction

C1s sparse 60 ms errors

target: timing-error p99

C2 whole-chart shift

target: chart-wide phase offset

C3 note-type shuffle

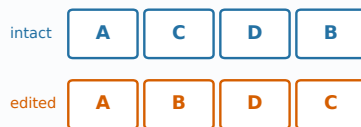

target: transition familiarity

C4 loop collapse

target: 4-gram typicality

C5 common-pattern rewrite

target: 4-gram typicality
(one effective axis)

C6 note-rate scaling

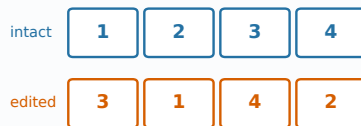

target: note-rate typicality

C7 local burst insertion

target: density-spike limit

C8 bar-order shuffle

target: 4-gram typicality
